CANCER MEDICINE IN PRIMARY CARE

Working in primary care we all have a pivotal role in cancer recognition and palliative care management. This book summarizes the current NICE guidelines on cancer recognition along with the basic knowledge of the various types of cancers. An easy to read guide it is a must read for all primary care clinicians. We believe would help you tackle this difficult topic confidently.

DR. RAHUL SRIVASTAVA MD MRCGP

A4MEDICINE CANCER MEDICINE

A guide to understanding cancer including the current NICE USC guidelines and symptom management for the primary care clinician

AVAILABLE VIA OUR BOOKSTORE AT WWW.A4MEDICINE.CO.UK
